

Singapore Health Sciences Authority Approves Emergent BioSolutions Anthrax Vaccine, BioThrax

June 23, 2011

ROCKVILLE, Md., Jun 23, 2011 (BUSINESS WIRE) -- Emergent BioSolutions Inc. (NYSE:EBS) announced today that the Singapore Health Sciences Authority (HSA) has approved Emergent's product license application for the marketing and sale of BioThrax^(R) (Anthrax Vaccine Adsorbed) in Singapore. BioThrax is the only vaccine licensed by the U.S. Food and Drug Administration (FDA) to protect against anthrax infection.

"Emergent is pleased with this development as it continues to grow its presence in the Pacific Rim," said Daniel J. Abdun-Nabi, president and chief operating officer of Emergent BioSolutions. "With HSA approval of BioThrax, we look forward to initiating discussions with the government of Singapore, as well as other allied governments that recognize HSA registered products such as Brunei, to help protect their constituents against the threat of anthrax as a biological weapon."

HSA is the statutory board of the Singapore Ministry of Health that administers the country's regulatory framework for pharmaceuticals, complementary medicines, medical devices and other health products. Its vision is to be the leading innovative authority that protects and advances national health and safety in Singapore.

About Emergent BioSolutions Inc.

Emergent BioSolutions protects and enhances life by developing and manufacturing vaccines and therapeutics that are supplied to healthcare providers and purchasers for use in preventing and treating disease. Emergent's marketed and investigational products target infectious diseases, oncology and autoimmune disorders. About BioThrax

BioThrax is the only FDA-licensed vaccine for the prevention of anthrax infection. It is indicated for the active immunization of adults who are at high risk of exposure to anthrax. BioThrax is manufactured from a culture filtrate, made from a non-virulent strain of *Bacillus anthracis*. To date, Emergent has delivered over 42 million doses of BioThrax to the U.S. government and continues to deliver additional doses under active procurement contracts. Since 1998, over 10 million doses have been administered to more than 2.5 million military personnel. Safe Harbor Statement

This press release includes forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Any statements, other than statements of historical fact, including statements regarding our strategy, future operations, future financial position, future revenues, projected costs, prospects, plans and objectives of management, including any potential future securities offering, our expected revenue growth and net earnings for 2011, and any other statements containing the words "believes", "expects", "anticipates", "plans", "estimates" and similar expressions, are forward-looking statements. There are a number of important factors that could cause the company's actual results to differ materially from those indicated by such forward-looking statements, including appropriations for BioThrax^(R) procurement; our ability to obtain new BioThrax^(R) sales contracts or modifications to existing contracts; our plans to pursue label expansions and improvements for BioThrax^(R); our plans to expand our manufacturing facilities and capabilities; the rate and degree of market acceptance of our products; the success of preclinical studies and clinical trials of our product candidates and post-approval clinical utility of our products; and other factors identified in the company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2011 and subsequent reports filed with the SEC. The company disclaims any intention or obligation to update any forward-looking statements as a result of developments occurring after the date of this press release.
